

Adding Players to a team

1. Add your players or create applications in the existing season for your players
2. Click on "player/admin" on the left navigation bar
3. Select your league and club
4. Change "Application Status" to "Pending All Applications" in the upper right corner
5. Click Search
6. Mark all player "accepted" and "age Legal" either one at a time, or all on the page by clicking on the words themselves.
7. One player has both boxes checked they are now eligible to place on a team roster.
8. Click on "teams" on the left navigation
9. Search for the team you want players on
10. Click on "roster player" tab on top of the screen
11. The default is to show players that are in the age and gender of the team. You may change that by clicking on the arrow and changing your parameters.
12. Click on the player name and then "add player to team" in the center of your screen
13. Click "Save Players" at the bottom of your screen.
